

# Before I Die

Used to love you but it all burned down  
Instead of pretty homes I see ashes now  
To have the faith you gotta feel the doubt  
But wise words ain't gonna help me now  
Time moves so slowly  
When you're lonely

Check the mirror  
But I can't take my own advice  
Even when I try  
Rather steer  
Than let myself go with the tide  
I hold on tight  
But what if I don't live before I die?

You said that all of the risks you take  
Will lead to heartbreak in a suitcase  
Guess that I do believe you now  
Cause I find you here in a different town

Time moves so slowly  
When you're lonely

Check the mirror  
But I can't take my own advice  
Even when I try  
Rather steer  
Than let myself go with the tide  
I hold on tight  
But what if I don't live before I die?

I want the road  
With all the lows  
So I can feel the highs

Check the mirror  
But I can't take my own advice  
Even when I try

My favorite memories  
Now all they do is make me cry  
I don't know why  
Rather steer  
Than let myself go with the tide  
I hold on tight  
But what if I don't live before I die?
